

I am a small business owner downtown Portland. I've had revenues down 50% during the pandemic, but have hustled, lost money, and borrowed substantially (substantially beyond the limited PPP help) to keep all my employees on and stay current on rent—so I was therefore completely ineligible for any of the \$100m commercial rent provision. I can't borrow any more and *now* am looking at having to stop paying rent, right as the tenant protections are running out. Please help. Sincerely,

Joe Mueller
