

All four bills should be passed. It is inexcusable that the work of our Oregon Senate is delayed or prevented because one party decides they cannot get their way. I live in Shady Cove, in Southern Oregon, and had to evacuate during the Obenchain fire. Friends had to evacuate due to the Almeda Fire that destroyed over 3000 homes. We need legislation passed and the work of the Senate done. There must be penalties for childish behavior and frankly, firing someone for failing to do their job is justifiable.
