

Please pass this legislation. I have voted every year since 1966 when I first became eligible to vote, and this proposal for Ranked Choice voting at the county level is a perfect way to improve our electoral process. We all want to choose the candidate we prefer and would like to have more choices to reflect our real wishes. This bill enables our second choice vote to count if our first one doesn't have enough support. We need to reinforce democracy in these challenging times - please pass this bill.
