

Please pass this bill. More voters will turn out when we have choices that reflect our real preferences. We can choose our first, second or third favorite candidate and feel our vote matters. I have never missed an election since 1966 when I first became old enough to vote, and this is a motivating improvement for bringing in new voters. I hope we are not afraid of improving our democracy to give voters a chance to really express their beliefs. Thank you - please support this bill.
