

Hello my name is Mr. Mark A. Smith, I have been a resident of Oregon for my entire life, while I do not count drug addiction/abuse as one of my vices I have seen it's many wide reaching affects of friends and family members. My endorsement of Measure 110 also touches upon many intersecting issues. I have seen several people in my life struggle and persevere or fail alone against addiction, this has been compounded by distrust of law enforcement for a whole host of reasons. and on the other hand law enforcement is not equipped for the care that is required to treat and support those that need treatment. So please continue in this vital and necessary work to ensure support and necessary health care to all Oregonians and let this be a solid and stable example for the other states of our nation.
