

Chairman Prozanski and Committee members,

I am Laoni Davis and I live in District 3 in Lane County. I submitted testimony yesterday, but I feel the need to submit this thought as well.

We all need to remember that a person who suffers from substance abuse and addiction is a person with a need. That need more than likely stems from physical and/or emotional abuse that more than likely began at an early age. This person needs healing from that trauma to move forward as the best person they can be.

Please support funding for services that voters approved in Measure 110. This need will only become more critical as time goes on and will help manage some of the divisions in our society.

Thank you,
Laoni Davis
