

I strongly oppose this bill! The state has no business forcing private schools to public school standards. Private schools successfully run their schools WITHOUT public school interference. THAT IS WHY WE SEND OUR CHILDREN TO PRIVATE SCHOOL!! Especially religious schools. There is a reason for separation of church and state. The state has no jurisdiction to tell the religious schools how they will run their school. We pay a lot of money in taxes to support the public schools AND we pay a lot of money to send our children to a faith based, private school. This bill violates the rights of every private school and every family who chooses to send their child to private school. VOTE NO!
