

This bill impinges religious freedom and will not withstand a constitutional challenge. It is a waste of taxpayer dollars. I am a school attorney licensed in both Oregon and Washington. I am also a passionate Democrat. This bill is an outrageous violation of First Amendment rights. Oregonians have a right to send their kids to private/religious institutions without overreaching by the government. Better to spend these dollars improving our public schools than worry about the private/religious schools that are doing just fine.
