

Dear Friends,

As a several generation resident of Portland and relatively recently returned from decades in rural Oregon, I am highly in favor of better enforcement of traffic laws. I live near a major thoroughfare in Portland and am appalled by the speeding and light running I see daily, especially in that our grandchildren come here to visit, or will come once we are all vaccinated. I recognize that the PPB has many other issues on its hands, limiting traffic patrols. More camera use would be a great augmentation. I feel no invasion of my privacy by such an improvement.

Yours hopefully,

Joe
