

Please stop SB262. If I ask my Senator to fail to show up in order to force some discussion and reasonableness on any certain legislative item, he or she should not be fined or punished for representing me! When there is supermajority rule, LOTS of Oregonians are left feeling unrepresented. Focus on things that we can all agree on and quit forcing such division in our state. We don't want mob rule. We want legislation that most of us can agree on.
