

I wholeheartedly support SJR 4. For far too long, the Oregon Senate has been prevented from accomplishing its vital business by the Republican clique whose main goal is to weaken and even destroy our democracy. Look at the voter suppression efforts all around the country. Look at the Republican response to Donald Trump's lies about the functioning of our electoral system and his attempt to overthrow the government. And look at the last attempted sessions of the Oregon legislature which Republicans have stalled by using the 2/3 quorum rule. This session they walked out just for the hell of it, to send a "protest". This cannot go on. I support full discussion of SJR 4 and want it submitted to the floor of the Senate and House. I understand that Republicans will defeat it by yet again abandoning their jobs and going underground protected by armed militias, but the idea needs to get a public hearing
