

3/17/2021 – 1:00 pm -SB 12Senate Committee on Health Care

I oppose Senate Bill 12. State employment benefits working or retired are better than the general public receive. This is an extravagance for prescription fill or re-fills for 90 days to the benefit of Oregon Educators Benefit Board and Public Employees' Benefit Board workforce or retired workforce.

Where is the Legislative Assembly going with this, providing a benefit that is so beyond what a public citizen would be entitled to? Why is the Legislative Assembly not making it lawful for these people to order and ship medication and pharmacy supplies to their home from Mexico and Canada pharmacies?
