

Hello,

"Environmental Justice" requires punitive, vengeful action on the part of the state favoring one portion of our citizenry against another. I oppose, and believe most fair minded Oregonians oppose, such an attitude on the part of the governing authorities.

I call on the legislature to vote down this bill and replace it with one that promotes environmental grace and tolerance, healing the divisions that are all too obvious in our fractured society while removing the major pollution issue, wildfire smoke, from our state.

Regards,

John Paul Harmon
