

I oppose SJR 3. Last session my Senator was part of the group who denied quorum and I am so glad they did. They were representing me as their constituent and standing up against some bad bills. They used the only tool they had and I, along with many Oregonians, gave them my full support and was very grateful they had that tool to use. Denying quorum has been used by Democrats as well as Republicans. I don't think punishing legislatures and not allowing them to run again is the right way to go. If their constituents aren't happy with the job of their legislators than they won' reelect them. This is a bill that seems only to be for revenge from last session and that is no reason to make a new law. Please vote no on SJR 3.
