

I OPPOSE this bill.

"Per provisions of the Gun Control Act (GCA) of 1968, 18 U.S.C. Chapter 44, an unlicensed individual may make a firearm as defined in the GCA for his own personal use, but not for sale or distribution." - US DOJ Letter

Firearms are nothing more than a tool just like a hammer, a screwdriver, an axe or a knife, regulating through laws and registrations does nothing to protect citizens it only further inhibits law abiding people to exercise their 2nd amendment right to preserve and protect themselves and others. Someone who does not follow the law will continue to break laws for any purpose/crime they want to act on. Please, STOP implementing laws that leaves the citizens defenseless, criminals will only benefit from laws like this.
