

I am writing in opposition to SB262. Unless rules are changed that bring both sides to the table and bills are not allowed to be passed on party line votes walking out is the minority party's only option. Please either change the rules to 2/3rd votes (atleast for anything not put on the ballot) or figure out some other way to not flex your majority power muscles and reach across the isle at all times.

Thank you
Tricia Hafner
