

I oppose SJR 3

This bill is just another controlling issue. The democratic have become bullies and will use any bulling tactic they can find to get their way. The democratic need to get back to work, do real work that benefits ALL of Oregon and stop trying to control every bill or issue.

we are a Republic, time to work like we are one.

We need strong leaders that will stand up loud and proud to hear our voices and help us get our State back to normal.

I'm offended that my tax payer money is being wasted on so many "bullying" bills.

Please consider working together, get our State Open, get our children some real education and make Oregon a good place to live again. Businesses do not want to come here, our taxes are too high. work on bringing in good jobs, lowering ALL the taxes and listening to all of us, not sure Portland.
