

I strongly oppose SJR 4

We have set our guideline for Quorum so that one party does not have the entire control. This bill will turn our legislature into a one party rule. How is that a balanced government? Who would we have to protect us from bills that will endanger our jobs, raise our taxes and ruin our schools??

Just another tax payer wasted bill.

When dealing with young children that want to get their way, adults have to make decisions and this bill looks like little kids wanted to get their favorite toy and not share.

Growing up as a Democratic and being one until two years ago, I'm appalled at how this legislature is turning into five years fighting to have their way. We need some adults to step in and keep this State on track.

Stop wasting our money and do something for the good of Oregon and not just for your party. There are more than two parties and they all need to be heard.
