

To whom it may concern,

I am asking that this bill shall be pass due to the fact my husband I believed served his due time for the crime he was charged and most of it wasn't true. I've been diagnosed with cancer and amongst others since he got incarcerated and haven't been able to see him at all since I was in another state working and trying to make it when he got put in prison. He is a good man and I believed he had served his time for it.

Sincerely,
Cj Escobar
