Dear Chair Bynum and members of the committee,

I write to you today to urge you to pass HB 3265, The Sanctuary Promise Act. One in ten children in Oregon live in a household with an undocumented person. I strongly believe that children should not have to fear that their parents won't come home some day because they were pulled over for a broken tail light. Our federal immigration policies are broken and I believe Oregon's local law enforcement should not be collaborating with ICE. Immigration makes Oregon better and I believe all Oregonians should feel safe in their homes, schools and workplaces.

Thank you for your consideration.

Anna
