

I'd like to submit testimony for my support of the Sanctuary Promise Act. I'm a resident of SE Portland with a youth in my family who doesn't have citizenship. This Act is important to me because immigrants are valued members of the Oregon community and contribute to our state's wellbeing and prosperity. The federal immigration system is broken and causes terrible harm through family separation. We need to keep our state out of it. This Act updates the law that protects Oregonians from racial profiling and ensures that local police and resources will not be used for federal immigration enforcement by:

- oStrengthening Oregon's sanctuary laws
- oCreating a private right of action
- oProhibiting public and private ICE detention contracts
- oProhibiting warrantless arrests at Oregon's courthouses
- oPreventing racial profiling in our jails

All Oregonians want to live in communities where our families feel safe, secure, and protected. Local law enforcement agencies should be using our limited resources on the most important law enforcement priorities that keep our communities safe.

Thank you for your time and consideration.
