

I am writing to support our local movie theater. This is one of a few year-round recreational opportunities in our community, and we have really missed going to the movies during COVID. The theater made a solid effort to stay involved with the community by offering "mystery movie night" packages if a mystery dvd, popcorn, soda and snacks to enjoy at home. But being able to go to see a movie is a real treat in our small town, without having to get on a dangerous highway for a half hour or more each way. Any help or support you could give to movie theaters would be appreciated by us all. Thank you.
