

Dear members of the House Agriculture & Natural Resources Committee :

I urge you to support HB 2728 prohibiting Coyote Killing Contests in Oregon. These contests are a violation of ethical and science- based wildlife management . Oregon has a duty to protect public interest and respect Oregon's wildlife by employing conservation centered values and good stewardship of our natural resources, which include wildlife.

I urge Oregon state lawmakers to follow in the footsteps of Washington, Colorado, New Mexico, Arizona, Massachusetts, California & Vermont who have already banned wildlife/coyote killing contests by passing HB 2728.

Sincerely,
Barbara Fuller
