

Hello my name is Lowann Kent I am writing in regards to SB 191 the sentence reduction through earned good time for mesure 11 convictions.

While incarcerated in D.O.C I have made the conscious decision to conduct my self in a manner that would earn me full good time work time if I was eligible.

I have found that most AIC's feel that why should they conduct them selves in a favorable manner when they have nothing to lose or gain by doing so but regardless of my ineligibility I continue to conduct my self in a favorable manner and prepare my self to once again be a productive member of society as well as other AIC's who have also done so and will also benefit from the passing of this bill.

I beleave the implement of the SB 191 would bring hope and good moral not only to the AIC's but to the children, wives, husbands, mothers and fathurs of the AIC's especially with the hard times the world has recently endured.

I know that this bill will not only benifit the AIC's and there families but also D.O.C, the officers and employes of D.O.C and our communities by encouraging and promoting good behavior while making reform and rehabilitation more obtainable as well as help with mass incarceration.

So I ask you that you please vote yes in support of SB 191.

Thank you for your time

Sincerely yours

Lowann Kent
