

to: Senate Commmity.

I would greatly appreciate it if you would pass bill SB 191. My husband had a perfect record before he was sentenced to measure 11. If you pass this bill, you would not only be helping our family out but many others who work for his company. Rick is greatly missed by his family, friends, and employees. We would like to have him home sooner than later.

My husband has done everything he can while he has been incarcerated to avoid trouble. He's got a good job Rick is now in honors dorm, and has started an apprenticeship program for plumbing to help others benefit themselves. All of the things he did and does while he's at home.

I pray you please bring him home soon!

Thank you

Stephanie
