

Dear Committee Members,            OPPOSE SB 835

In 1984 I worked cleaning apartments to help pay for our rent. The assistant manager of the apartment complex let himself in to the apartment right by mine and brutally murdered one of the young girls that lived there. It was so horrifying and because he was my boss at the time I still worry to this day that he could be out of prison early. Our Prisons are well equipped with the best care for the adults in custody. I agree with the District Attorneys of Oregon that OPPOSE this bill; It will cause victims and their family undue stress and they have already been through enough. Thank you for considering my testimony.

Sincerely,  
Loretta Johnson  
Roseburg
