

I believe that anyone who works should be paid the same as anyone else. That is if they work over 40 hours in a 7 day week, they should get overtime pay for those hours just as everyone else does. Everyone should also be paid the same minimum wage as everyone else. Singling out Agricultural workers to be paid less is unfair and causes Agricultural workers to depend on Social Services if they can't feed their families on their wages. Please do what is fair for all.

Sincerely,
Thomas Brown
