

Hello, my name is David Spradley. I'm writing today to show support for measure eleven reform.

When I was convicted in 2007 my attorney had told me to stay out of trouble keep my head up and stay busy. He also said that he believes that sometime during my long 17 years reform would happen and I just might get some time taken off my sentence for good behavior. I have 14 years of good behavior, no misconduct reports, also I have worked 7 days a week the entire time I've been in D.O.C. There are so many men in here that have walked that same straight line as me. We are not asking to allow time reduction or goodtime to all, but to the men who are deserving of it. The men who have strived to better themselves while in here, the men who don't get into trouble, the men who know there are consequences for their actions, so we continue to make the right choices.

Also, by giving goodtime to measure eleven and have it being retroactive would take a huge burden off of DOC and the state budget. I myself feel I'm wasting tax payers money, I used to be that tax payer. There are so many men in here on measure eleven who prove each and everyday that they are rehabilitated. I myself cannot wait to be again a productive member of society.

Thank you for your time
