

I am urgently sending testimony to stop the following :

- 1) Redefining contribution to allow huge contributions to continue
- 2) Favoritism by allowing for Democratic and Republican caucuses in the Legislature special rights to receive and make huge contributions
- 3) Local governments nullifying limits for local candidates
- 4) Contributions made by for profit corporations compromising contribution limits

And I support starting the following :

- 1) Having self funded candidates be required by law to disclose in their ads how much they are spending on their campaigns.
- 2) Enforcement that comes from the public sector on funding that is independent of partisan government officials

Thank you for your time.

Your Constituent,

Mel Scott
