

Oregon Legislators:

I strongly support HB 3343! I want you to take this big step and support it too. For too long I have seen big money leading our political decisions. I have been left out and the wealthy have dominated the election process. It is time to stop this unfair practice. I am not alone in making this request. Voters clearly and overwhelmingly support this action as demonstrated by their support of Measure 107.

It is now your turn to endorse and enforce cutting off big money to sway politics. This is your job. Do it for all of us regular people.

Thank you for fighting hard for HB 3343.
