

I strongly urge the committee to consider and approve HB 3343.

This is a model bill that addresses both incoming contribution and outgoing expenditures.

It is a balanced bill in that it allows for contributions that facilitate campaigns. It allows for challengers and under represented groups to mount potentially successful campaigns; as shown by entities like the Brennan Center.

HB 3343 has studied similar efforts in other states and addresses all potential loopholes and abuses.

This bill also addresses enforcement by citizens, and not limited to partisan elected office holders

Finally, it also includes provisions for disclosure of individual large donations on political ads and individual expenditures.

I strongly urge you to adopt HB 3343
