

Hello,

My name is Joel Slegers. My Parents, my wife, 45 hard working employees, and myself farm our dairy in Dayton in full compliance of CAFO ODA regulations. I oppose SB 583 because it is totally unnecessary. Bills like this are being proposed with the example of a bad actor who was shut down by the system we have in place. The system worked and continues to work in a state where dairymen have voluntarily adopted progressive environmental practices. Thank you for hearing my testimony.
