

Hi my name is Sienna Jackson and I am the daughter of Bobby Jackson. My dad has been in prison my whole life and I miss him very much. My dad went to prison when I was 2 1/2 months old. I started visiting my dad when I was 10 months old. My dad is always thinking about me. He has taken parenting classes to be a better dad to me. He has been in prison since I was a baby and I am almost 8 years old. I want my daddy to come to my birthday parties, take me to the park, and spend time with me. My dad should be able to earn good time just like anyone else. It's not fair that my dad can't do good and be rewarded for his behavior. I understand what my dad did was wrong but I also know that was a long time ago and my dad has bettered himself. He should be able to prove that to everyone. He needs to be with his family. I miss my daddy so much. Due to Covid, I haven't even got to see my dad in real life. I just want my dad out, can you please just give my daddy a chance. Thank you for listening. Please vote yes on SB 191 and make the changes to Measure 11 retroactive. My daddy deserves to see me and his family sooner too. :(

Thank you,
Sienna Jackson
