

Dear Senate committee on Judiciary

Dear senate i have personally witness ~~corruption~~ corruption my whole time being in here. I know that not what you want to hear. I know i messed up and made some big mistakes. I had to learn the hard way. I know it's easy to see the bad, i also know the last thing you want to hear is my story. The reason you should make measure 11 retroactive is, because you can give certain people an chance on having a life. Life in here makes you worse not better. Were not treated like humans, and were trained to be criminals in here. All i want is an and chance, I know it's easy to see us as evil, but don't look through your eyes, try to see through God eyes. Change starts here be an part of change,

Cause the system needs
change, All i want is to see
my Dad before he passes away,
Maybe we have to pay for
our mistakes, but punishment
is not what we need, Rehabilitating
is. So start now and make
america great again! please
don't look at the bad and vote.
Forgive and give us an chance
to see the ones we love, Remember
we are humans, we do care,
and we want change! so please
for bill SB191, and give prisoners
an chance to live again!

Thank you

Tristen Gitts
