

I want to show my support for fair pay for Naturopathic Doctors. Unfortunately, NDs are not being fairly compensated for their valuable contributions to healthcare in Oregon. This makes it more difficult for NDs to stay in practice and deliver this essential and unique level of care. It also places them at a great economic disadvantage to their healthcare peers, making it difficult to repay student loans, raise their families, and give back to the community. Alongside this, it limits access to healthcare and choice of healthcare for many individuals and families in the community.

I have used several ND physicians. They have helped me greatly. My western medicine dr.s were not either willing or able to work with me to find the root causes of my illness. My ND did and continues to support my journey to wellness. This has allowed me to continue to work and contribute to my family and community . I don't know where I would be without their work.

Thank you for your time and consideration.

Laurie Scorby
