

I am writing in support of SB 191; my Dad has been in prison for the last three years. Our family is very sad he isn't here right now and my Mom has to work hard to support us. I think it is unfair that not everyone can earn good time, and it makes you think why people are going to be good if they get nothing for it. They watch others getting out sooner even though they were both good, and those that are being good like my Dad have to stay in just as long as those that are continually breaking the rules. My Dad works hard to be good and hasn't broken any rules. At the end of every six months, he gets a letter telling him that he has had good conduct and would have so much good time, but of course he's not eligible. I hope you will vote yes to SB 191. I really want to have my Dad home as soon as possible and I want him to be treated fairly. I miss him.
