

I was watching the whole committee hearing this morning and when my name was called to testify, I was unable for technical reasons to reply.

In addition to my already submitted written testimony, I would like to add that my incarcerated family member has developed a sense of compassion. I listened to both sides of the argument pro and con on SB 191 and believe he has learned much from his time in prison.

Thank you for the additional opportunity to offer my support for SB 191.
