

Dear legislators,

I urge you to vote NO on HB2499. All of our voting laws require a signature on record. This subverts that basic protection. The bill requires electronic voter registration system to allow qualified individual to register to vote if individual has social security number. Requires system to enable individual to submit electronic image or digital copy of signature. Further requires system to allow approved third-party organizations to submit registration cards electronically on behalf of individuals. Electronic voter systems are proving to be easily manipulated and subject to fraud all up and down the voting process. Until a secure system can be guaranteed, our elections will be at risk. Extending motor-voter to other agencies is irresponsible and only opens the door to illegal voter registrations. Please vote NO on this bill. Thank you.
