

Again, Taxation Without Representation: Only those who have lost nothing vs. those who lost everything in the recent fires would be so cruel. Instead, try trimming the salaries/benefits of all State of Oregon Bureaucrats/employees, add balancing the budget before contemplating a tax raise of any sort.

Most would agree that tax and spend without results is foolhardy.

HB 2379 does nothing but cause harm to those who can least afford it, and continue to build ill will towards those who wish to tax without speaking to the people who've elected them.
