RE: Support for SB 5505

Co-Chair Girod, co-Chair Holvey and Members of the Committee:

My name is Karen Saxe and I work at DevNW. DevNW is an affordable housing development and counseling agency serving Lane, Linn, Benton, Lincoln, Marion and Clackamas Counties. Our mission is to serve low and moderate income Oregonians to increase their financial security, build assets and develop thriving communities.

We support SB 5505 and the Housing Alliance request for \$250 million in General Obligation, Article XI-Q bonds to build affordable homes across Oregon through the LIFT program, including 20% to build affordable homes for purchase.

DevNW provides financial and pre-purchase education and counseling across six Oregon counties, helping many low and moderate income families become first-time homebuyers. Our pre-purchase services demystify the homebuying process, help clients connect with local lenders and real estate agents, plan for those unexpected homeownership expenses and avoid predatory lending practices. We provide one-on-one counseling sessions that help ensure our clients are ready to take the step to homeownership, that their financial and credit picture make them mortgage-ready and that they've assembled a team of professionals they can trust. We are also able to layer financial resources like downpayment assistance to help our clients achieve homeownership.

These services and resources offer a chance to homeownership in a market that is pricing out low and moderate income families, when rising rents make it harder and harder for families – even those with stable income – to save for a down payment.

The availability of affordable homes is also a critical component on that path. Average home prices in Eugene are over \$350,000, up over 11% from a year ago, while buyers

DEVELOPING THRIVING COMMUNITIES

in Clackamas County are facing prices close to and above \$500,000. This is not a market that provides entry for any low or moderate income family despite all of their work to become financially stable. Affordable homeownership development helps correct the market by providing housing options for these families.

LIFT funds are increasing the supply of affordable housing options, both rental and ownership units, across Oregon. DevNW used LIFT Homeownership funding to develop affordable homes for sale in Cottage Grove, helping six families build wealth and security for their families in the community they want to call home. We are currently selling 12 homes in Florence, slated to close later this Spring. And, we have additional projects underway with LIFT funds in Eugene, Corvallis and Clackamas County. We thank you for your support of LIFT funds, especially the set aside for dedicated resources to homeownership.

Homeownership is the single greatest way that Americans build wealth. It helps to break the cycle of generational poverty and reduce the racial wealth gap. Kids succeed in school when they know their family has a safe, affordable place to call home, families are more engaged in their neighborhood and community and employers can rely on a more stable workforce.

SB 5505 will increase opportunities for affordable housing development, and the set aside to build homes for ownership is a critical component for helping our communities thrive. We thank you for all of your work on behalf of Oregonians and urge your support of SB 5505 and the Housing Alliance request for \$250 million in General Obligation, Article XI-Q bonds.

Sincerely,
