

Hello.

The citizens of Oregon are not meant be a well the for government to dip dry, the people's resource's are not for the government to steal. Reduce the size of government. Stop paying people to not work, stop supporting an unending flow of welfare bums, not Americans, not illegals.

Give us a law that creates harsh criminal penalties for politicians who violate their Oath, Being as state and federal Constitutions are law, and all other law and every politician is subordinate to them.

And there is the continual infringement of our Rights that must be ended.

Constitutional~Carry!

Sincerely, Aebe in North Powder
