RE: HB 2009-A Support Testimony

Dear Chair Chair Jama, Vice Chair Linthicum and Members of the Committee:

My name is Shannon Vilhauer, and I am the Executive Director of Habitat for Humanity of Oregon. I am writing to express our organization's strong support for HB 2009-A.

Today, Habitat for Humanity affiliates based in 24 communities across Oregon are actively building, selling and repairing homes. Each year, approximately two-thirds of the homes we build and sell are located in rural parts of the state. Thanks to Habitat's diligent homebuyer selection process and thorough financial education, our mortgage repayment rate exceeds 98 percent. Together we have made the dream of stable and affordable homeownership a reality for over 2,600 Oregon households. Habitat for Humanity believes that every Oregonian deserves a safe, stable and affordable place to call home.

Our neighbors and communities have been hit hard by the realities of COVID-19. Before the coronavirus pandemic, more than 18 million families in the United States were already spending half or more of their income on housing. For far too many Oregonians, sheltering in place isn't as straightforward as it sounds. Families are facing additional economic hardship from lost wages or layoffs and are increasingly confronted with choosing between shelter and life's other essentials. Please act today, to ensure that Oregonians of all income levels can enjoy the health and economic benefits of a secure place to call home during this critical time.

Many for profit lenders work diligently to help Oregon families remain stable. Unfortunately, as we saw during the mortgage crisis in 2007-09, our nation's lending system isn't structured to ensure maximum household stability. HB 2009-A provides critical assurances for mortgage holders experiencing economic instability. This legislation enacts both a foreclosure moratorium and ensures that missed payments will move to the end of the mortgage. This COVID-19 relief legislation is critical, in that it will provide uniform and predictable outcomes for homeowners experiencing coronavirus related financial instability. The foreclosure moratorium will provide our state with the time needed to stand up new federal mortgage relief programs, to the benefit of all parties.

The balloon payment model outlined in HB 2009 mirrors the approach adopted by Fannie/Freddie/FHA. Habitat for Humanity of Oregon supports this approach because it will ensure the following results:

- Allow current homeowner(s) to remain stable during a financially vulnerable time.
- Ensure that mortgage holders receive fair and consistent treatment.
- ***Provide a timeline that enables homeowners to access critical resources such as federal Homeownership Assistance Program funds included in the American Rescue Plan Act.***
- Avoid a time intensive and costly foreclosure process that displaces people who have made steady mortgage payments for many years.

As the COVID-19 pandemic ensues, we find ourselves living in challenging and unprecedented times. The importance of having a safe and stable home has never been greater. Please support HB 2009-A.

On behalf of the Board of Directors of Habitat for Humanity of Oregon and the 24 Habitat for Humanity affiliates we serve, thank you for your service. We commit to working with you, the homeowners and communities we serve in mutual support and care.

Thank you,
