

Thank you for this opportunity to give my opinion.

Due to the economic down turn of our economy, I think it NOT wise to spend this money on these projects. I think these improvements can wait, even a few years, till we recover this sliding economic downfall due to this "pandemic".

\$1.9 TRILLION! \$400 BILLION!! Good Greif!! Money being tossed around like feathers!!

I say NO! Do not spend anything, unless it benefits the private business' that are losing their livelihoods.

I say, take off the masks and read my lips!

Thank you,
Brenda Sisson
