

Hello

I just want to say that my rights don't end where someone else's rights begin. So you would rather I leave my Gun in the car on the street where the criminal sorts can get to it instead of having it on me where I can protect you and others? My Gun goes where I go so leaving it home is not an option. I suspect this SB is an infringement on my rights and urge you to not adopt this bill.

Thank you  
Mike Carr
