

My entire family and I support this bill. The Oregon Policing is only as good as it's police. We would like to see Oregon pass a bill like CO. The enhanced law enforcement integrity act which would end qualified immunity at state level. Looking into police misconduct should be taken very seriously. Racial misconduct has to be number 1 top priority. Police are killing Black citizens as well as IPOC they are sworn to protect. So the police departments and police officers need to be held accountable or any type of dispute should be handled by local organizations that are trainend to handle certain 911 calls. Police don't know how to de-escalate and have shown us, they have been caught shooting people on video in front of their childrent but not held accountable on over 1,000 accounts. We now have this information in 2021 due to bills like these being passed and reports and stats show police have and continue to kill too many people here in the U.S. Oregon is now the 4th worst state recorded on racial misconduct.
