

Enough is enough! Stay the heck away from our 2nd amendment rights. This ridiculous nonsensical ideology written by people with communist ideologies needs to be wiped away from existence. I demand that this bill be shut down and nothing like this ever be proposed again. I work too damn hard to be treated like this by so called representatives. The honest hard working people do not deserve this. Instead of focusing on disarming law abiding citizens one bill at a time, why don't you guys focus on going after the real criminals. Like the ones that have been burning down Portland for a year now.
