

The Democrat party of Oregon shows once again that they're hypocritical oppressors who don't respect the human right of self defense. The Democrat party claims to want criminal reform & less inmates in our prisons. Yet, here they are creating a bill that will allow any Karen (or group of) in any Public Building Administration to enact non sensical rules creating a patchwork of gun free zones targeting probably the most law abiding citizens. CHL holders have gone through the states already ridiculous licensing process and statistically are likely the most law abiding citizens. Potentially, no longer will a CHL holder be able to check out a book at the library, pick up a relative at the airport, go to a Dr.'s appt, or many other everyday activities, simply because they choose self defense. Oregon's largest cities police force has been decimated by protests, & lack of support & can no longer respond to threats to life. This will also target the largest growing demographics of CHL holders, women & minorities. The same groups that Oregon's (& nationwide) Democrat party have spent the last year(s) yelling about how they're marginalized, yet here they are targeting a non issue to turn their constituents in to criminals. Combine this with the INSANE proposal (HB2510) to hold the victim of a crime responsible for the actions of a criminal thief that steals their firearm, & it's clear that the Democrat party's agenda is to swell Oregon's prison population by enacting laws for a group of citizens that aren't an issue. Yet again, they're creating a problem where one doesn't exist. It seems their hope is for this bill & HB2510 to pass, causing a CHL holders attempt to follow these stupid, inane laws and lock up their firearm in a vehicle, which has a good chance of getting stolen. Then when the criminal that STEALS the firearm goes and commits a crime, the CHL holder trying to abide by this stupidity, gets charged when they're the victim. Where's the bill to charge the owners of cars that a thief steals then goes & kills someone with? Or maybe rape victims start getting charged with indecent exposure? Sounds ridiculous right? There's no difference in the logic of these bills and my above hypothetical/rhetorical questions. This is not representative democracy, it's becoming a dictatorship run by Komrade Brown & her Politburo (aka the Democratic Party of Oregon). This legislation is a violation of the natural human right of self defense. STOP VIOLATING HUMAN RIGHTS!
