

I oppose this bill. Oregon has become less and less safe every year, but nothing compares to the lawlessness of the last few years. With Antifa and BLM violence becoming "Normal", drugs becoming "Legal", convicted prisoners being released so they don't catch a cold, DA's letting violent people go without charges because they support this violence against tax payers, and calls to defund our overworked and under appreciated police.

The citizens of Oregon are being forced to protect themselves more and more. I cannot count on the police to protect me or my family - they are too busy dealing with the same violence that is being allowed on our city streets night after night.

Legal gun owners get vilified every time someone breaks a law. It has to end now. We already have laws in place to punish those who commit violent crimes. Let's focus on enforcing the laws we have instead of making criminals out of those of us who are responsible, tax paying citizens.

Thank you for listening and please oppose this law that hurts Oregonians.
