

I am writing to oppose this unnecessary and mean spirited bill. CHL holders like myself are law abiding citizens and Democratic proponents can not provide any evidence that CHL holders present any threat to public safety. There is absolutely no logical reason for this bill other than to make felons out legal gun owners due to the fact that the bill is arbitrarily written. According to the FBI, there are two million DGU's per year. It can be argued that this bill makes public employees less safe by precluding anyone other than law enforcement to carry their firearm in a public building or adjacent grounds. It is also worth noting that the DPO's Gun Owners Caucus opposes this bill, so the opposition to this bill is bipartisan. I encourage law makers to vote no on this unnecessary and mean spirited bill.
