

I will fight for my gun rights from now till forever. This right is important to everyone that believes in freedom! If you take away this right from law abiding citizens, what makes you think that criminals will not still have a way to purchase fire arms, while us law abiding sitting ducks wait for them to harm us..No way!! I oppose Bill SB554 100% and you should rethink this bill as well if you want any future with freedom in it.

Thank you..
